Lockheed Martin Code Quest: Code Quest is an annual computer programming competition where teams of 2-3 students each work together for 2.5 hours to solve problems by programming to complete the "quest." The problem set consists of 15-20 challenging problems created by Lockheed Martin engineers and computer programmers.

International Club: Learning and sharing the cultures of different countries to students. Including presentations representing different cultures and "international night" an event that we setup annually to showcase different cultures to visitors.
